LIFE ASSURANCE is the most important insurance you can have. It increases as you get older. But the age you pay for your life insurance is while you are young. The longer you live, the more you pay more in the form of increasing years of life insurance. **TERM LIFE OR ENDOWMENT POLICIES** are guaranteed at the end of the term. They are guaranteed for 10, 15 or 20 years. But remember, the half that the agent says you will get at the end of the term is the amount you will receive before you insure. **S. NATURAL GAS GUSHERS

NATURAL GAS GUSHERS.

THE PROVINCIAL COMPANY'S EXTENDED OPERATIONS.

The Wells in the Niagara Peninsula—The immense Output from the Completed Bores—What a Well is Like—Future of Natural Gas.

PORT COLBORNE, Aug. 4.—The Provincial Natural Gas, Light and Fuel Company

dition, but exclusive drilling rights over 40,000 acres of 75 square miles of land in the southern and eastern parts of the county of Welland. Although operations were commenced scarcely more than a year ago there are now 10 wells completed, with a combined capacity of 20,000 feet per day. There are also two wells approaching completion and another about to be commenced.

(Of the ten wells which have been drilled eight are good producers. The wells are about a mile apart. The centre of the group is 11 miles from Buffalo, 13 miles from Niagara Falls, 19 miles from St. Catharines, 45 miles from Hamilton, and about 60 miles

The company commenced drilling in July, 1899, in the township of Bertie, on the farm of Philip Zavitz. The well was continued to a depth of 349 feet, when a flow equal to 1,700,000 cubic feet per day was obtained, with a rock pressure of 555 pounds. The second well, which is about half a mile north on Elmer Zavitz's farm, was not so successful. Drilling was stopped at 501 feet below

the surface. This well produces 400,000 feet a day, and has a rock pressure of 540 pounds. About a mile to the west, in the township of Humboldt, the third well was sunk on Jonas Zavita's farm. The capacity of this well is 700,000 feet per day. It has a rock pressure of 510 pounds, and is 1350 feet deep. The farm of J. A. Ramdon was chosen as the site for the fourth well. Better results were obtained here. The capacity of the well is 2,000,000 feet. It was continued to a depth of 876 feet and has 550 pounds pressure. The fifth well is a "gusher." It is in the township of Bertie, on the farm of Daniel W.

1. ZAVITIA. The output of this well reached the enormous figure of 7,000,000 feet per day more than three times the total daily consumed in Toronto. It is a remarkable fact that the rock pressure of this well is lighter than some of the less productive, being 510 pounds to the inch. The depth is 842 feet. To compensate for this success the next well was a total failure, and has been abandoned by the company. The seventh, which is on the farm of Adam Smith, Humberville, produces 2,600,000 feet, and has a depth of 564 feet. A second failure occurred on the farm of J. A. Barnhardt, Bertie, and the well was abandoned. The ninth well, situated on

Daniel and his farm, Humberstone, yielded 2,400,000 feet at a depth of 851 feet. Well No. 10, the last that has been completed, is another "gusher." It blows 600,000,000 feet a day from a depth of 872 feet. Drilling is now in operation on the farms of C. Bitner, Bertie and Trout Brothers, Humberstone. The thirteenth well has been located on the farm of Abram Michael, and drilling will be commenced shortly.

The average gas well in this region is a hole in the ground 5½ inches in diameter and about 850 feet in depth. There is a close-fitting iron casing to a depth of 650 feet, and

heavy rubber packing at the outside edge of the lower end. The casing and rubber packing are inserted for the purpose of preventing water in the upper strata from finding its way into the well. There is inside of the casing an iron tube through which the gas is conducted to the surface. This tube varies in size according to the capacity of the well. The whole is anchored down by means of heavy cross beams fitted into the rock near the surface. The time occupied in drilling a well is about a month. The work is done by steam power generated in boilers which use natural gas for fuel. A derrick has steel high-strength support for an immense

Not only in Canada, but the world over, may the development of natural gas be said to be in its infancy. In the initial stages of the industry there has been much loss of labor and waste of gas, which experience is showing to be unnecessary. The chief drawback is the uncertain ainty as to the life of

well. At though it has been pointed out that a well at Port Colborne has been flowing gas for twenty-six years, it must be borne in mind that the flow has decreased very considerably since gas was first tapped. It is believed by scientists that there is an abundant supply for many years to come in the gas fields now known, should proper restrictions be adopted.

A FREE FIGHT.

Italians at Bound Brook (N.J.) Engage in a Fatal Quarrel.

BOUND BROOK, N.J., Aug. 4.—A terrible

fight occurred in the Italian settlement known as the "gravel pit," in the outskirts of Bound Brook, yesterday. Several years ago an Italian girl came to this country and began to work in the Bound Brook mills. She was engaged to a lover in Italy, but in a short time was married to one of the Bound Brook Italians. Yesterday a brother of the jilted lover visited Gravel Pit and met the faithless woman, who carried a child in her arms. He struck her over the head with a bottle. The husband interfered, and in a moment the two men were fighting. A free fight followed. The occupants of the

fighting. The
shanties all turned out and fought
violently. All sorts of weapons, including
heavy pieces of split railroad ties, spades,
shovels, pickaxes and knives, were used. In a
few minutes the ground was covered with
blood and groaning victims. During the
night two of the wounded men died in great
agony. Others are in a dying condition.
Five arrests were made.

Drowned at the Beach.
HAMILTON, Aug. 4.—While bathing at the
beach Sunday afternoon Max ("Slick")
Brecht got beyond his depth and was
drowned. He was an employee of Contract

Nicholson on the Grand Trunk spur line, and at the time of the drowning was with a son of his employer. Neither of the men could swim. The drowning occurred not 35 feet from shore. Capt. Armstrong recovered the body. Bradt has relatives in St. Catharines. He was married, his wife being on a visit to Buffalo.

The Safest

The most powerful alternative is **Ayer's Parsaparilla**. Young and old are alike benefited by its use. For the eruptive diseases peculiar to children nothing else is so effective as this medicine, while its agreeable flavor makes it easy to administer.

"My little boy had large scrofulous ulcers on his neck and throat from which he suffered terribly.

Two physicians attended him, but he grew continually worse under their care. I had heard of **Ayer's Parsaparilla**, and decided to have my boy try it. Shortly after he began to take this medicine, the ulcers came broken, and after using several bottles, he was entirely cured. He is now healthy."

"In May, last, my youngest child, fourteen months old, began to have sores gather on his head and body. We applied various simple remedies without avail. The sores increased in number and became extremely painful. A physician was called, but he was unable to do anything until in a few months they had covered the entire body. At last we began the use of Ayer's Sarsaparilla, and in a few days the change for the better was manifest. The discharges were healthy and continued until the sores had healed, and the child, robust, and finally seemed altogether cured. I live in the town of Clinton, and its appetite better than we have observed in many years."—Frank M. Griffin, Long Point, Texas.

—The formula of Ayer's Sarsaparilla is made up of the most pure and healthful ingredients, and is adapted to every kind, the best remedy known to the medical profession. Dr. W. Wilson, M. D., Wiggs, Arkansas.

... with a stronger current."

Dr. Fell was wearing the electrodes at Kemmerer and putting out some little fire communicated to the man's clothing, smoke from burning cloth and flared. But the odor still clung about, stifling and tenacious. Immediately attendants began to be corpse and finally the mask was removed. The eyes were found to be burned without a glassy stare. The lips and trachea of the pupils with bright red. The optic nerves were made. There was no contraction of

Where the mask had pressed to the face there was a livid mark. The lower region of its base was of deep purple. Purple spots soon began to show on the hands, arms and neck and he said he was surely dead. One of the doctors seven minutes after he was removed cut the skin at the wrist for a microscope specimen of the man's blood. It was examined and slightly coagulated.

"About 1700 volts," was the answer.

Zander's body was entirely unbothered by the treatment. At 10 o'clock and the doctors determined to proceed at once with the autohypnosis. The witnesses returned to the hotel last night.

"I have taken the chance, I think," said Dr. Shrady, "of resuscitating with hypodermics even an hour after death."

is said by all the physicians to be that consciousness was strikingly absent from Kessler's brain. The man was not instantly killed is the result of proper contact or of insufficient voltage. The consensus of opinion among witnesses here to-day is that not the least doubt exists but that a human being may be instantaneously killed by the application of perfect contact for a period of 30 seconds. Kessler's body will doubtless be dissected tomorrow in the prison hospital.

DEATH WAS INSTANTANEOUS
Brain Paralyzed—Kemmner's Face Was Painless.

More 8½ most of the doctors had run to the prison to prepare for the autopsy. The body of the dead man still sat in the electric chair, the limbs rigid, the expression on his face (but for the discolorations of death) unchanged. The rigor of the body was not of comment and surprise to the physicians. The temperature was

was determined that Dr. Jenkins should, instead of Dr. Daniel, should cut with the surgeon's knife, because of his experience in performing autopsies on men killed by electricity. Both Daniel and Dr. Jenkins stripped off the bandages and the surgeons' caps and the glittering array of scalp saws brought out. The body was

The record demonstrated that the matter went beyond all question. The tale of the woman was moved over to the cell directly under the window where the light could be had. When it came to a general survey of the book

and its external condition caused. Then Dr. Jenkins took his saw and began operations. The body opened. The heart, lungs and other organs were taken out and their condition noted carefully. They were all put in formalin for preservation and future use.

When the organs in the trunk of the body had been examined carefully, the top of the head was removed and the brain taken out. This was the most interesting feature of the examination, as the theory on which the operation was based was that the brain was the seat of the human mind.

A WAIF AND A WANDERER
Story of Kemmler's Life—The
for Which He Died.

He grew up like a lost child and, because his father was a wanderer, he did not know where he was a relative living, although he came to Auburn he received from a man living in Ohio who was his uncle.

After his wedding he learned to be another husband living. "I immediately left her and ran away to Buffalo with the Zeigler. There he became an eater and a drunkard. The woman cursed with a taste for liquor. I cried continually. She frequently took money, and, taken altogether, she was degraded as could be. One night, crazy with drink, they took about a few cents, and he struck her with an ax. Next day she was dead. That night, in the station-house, she was plied with liquor until she grew

"In May last, my youngest child, thirteen months old, began to have some peculiar fits, which were attended with various simple remedies without effect. He was then taken to a physician and discharged completely. A physician called on me a few months thereafter, and advised me to give my child the Sarsaparilla. I bought a bottle, and began the use of Ayer's Sarsaparilla, and in a few days the fits ceased. The better was manifest. The doctor assumed that the child was cured, and we were gradually dismissed. The child, however, continued to have fits, and I was obliged to re-engage the physician, and he again prescribed the Sarsaparilla. After using it a few days, the fits again ceased. The paper is published for the publisher by J. W. Dunnet.

EDITORIAL COMMENTS.
Kingston, on Thursday last, voted on a by-law to appropriate \$10,000 for a new fire alarm and automatic fire system. The vote was 10-10, and the by-law was not passed.

Silk Hatching.
The hatching of silk is a very important industry in the Province of Ontario. It is a very profitable industry, and it is one of the most important industries in the Province. The hatching of silk is a very important industry in the Province of Ontario.

THE DAILY ONTARIO
BELLEVILLE AUGUST 10 1890

Bridge Street Methodist Church.
REV. J. M. HOODSON, B. A., PASTOR.
Sunday 10th Aug.

Reformed Episcopal Church.
Metropolitan Block, CANTON ST.
Rev. Wm. Henry Barnes, Rector.
Services at 11 a.m. and 7 p.m. As there is no afternoon service during the month of August all the members of the S.S. are expected to be present at the morning service. Strangers cordially invited.

Licenses Commission Appointed.
Mr. Jas. St. Charles has been appointed License Commission for West Ontario. He received notice of appointment to-day.

Place Taming.
All orders left with Mr. Hennessy's dry goods store, or by post-addressed to 404 Belleville, will be attended to promptly.
S. R. HUFFMAN, Tinner.

Then Here by All Means.
Manager Earle of the Belleville gas company states to a reporter of the ONTARIO that if natural gas was bored for in this district the gas would be one of the best in the world. He has the advantage of their pipes already being laid.

Prof. Hand Coming.
On Aug. 25th Prof. Hand will give one of his delightful practical displays at the Exhibition Park. The display will include the bombardment of Alexandria, one of the greatest things the professor ever attempted. The Oldfellows' band will give a grand concert on the grounds.

Grand Train Fire Extinguishers.
Belleville has the crack Grand Train firemen of Canada. Yesterday a provincial meeting in Stratford they carried off the first prize in the free reel race, Toronto taking second. It was remembered that they recently carried off all the races at the Smiths Falls meeting. There were thirty competitors at the Stratford tournament.

Grand Train Ventriloquist Trains.
The seven ventriloquist trains comprising fifty-two cars passed through the city early this morning. Over three hundred people were on board. A number of the excursionists got off at Kingston to take in the Island and return. These trains carry excursionists from Chicago to White Mountains and Portland and are becoming very popular. Those who want to see the river scenery should get off at Belleville and go down the bay.

Leaving for West Toronto Junction.
Miss Tilney would remind the ladies that she will continue her sale next week only when she will close up her business. As the stock is still large the goods will be sold at greater reductions. Call and secure bargains—this week only. At 8 p.m. Military including plumes, tips etc. at cost prices. All accounts must be settled by the 10th of August, as that date they will be placed in other hands for collection.

The Cheese Industry.
A large quantity of cheese is being shipped from this district this year. It is largely in excess of last year. Inspecting to a prominent cheese maker, the board today a reporter of the ONTARIO was told that this year has been the most favorable for cheese making in several years. The general output from Canada to the United States is 150,000 boxes in excess of last year. This, of course, includes that brought in from the United States.

Metropolitan Block, CANTON ST.
Rev. Wm. Henry Barnes, Rector.
Services at 11 a.m. and 7 p.m. As there is no afternoon service during the month of August all the members of the S.S. are expected to be present at the morning service. Strangers cordially invited.

Licenses Commission Appointed.
Mr. Jas. St. Charles has been appointed License Commission for West Ontario. He received notice of appointment to-day.

Place Taming.
All orders left with Mr. Hennessy's dry goods store, or by post-addressed to 404 Belleville, will be attended to promptly.
S. R. HUFFMAN, Tinner.

Then Here by All Means.
Manager Earle of the Belleville gas company states to a reporter of the ONTARIO that if natural gas was bored for in this district the gas would be one of the best in the world. He has the advantage of their pipes already being laid.

Prof. Hand Coming.
On Aug. 25th Prof. Hand will give one of his delightful practical displays at the Exhibition Park. The display will include the bombardment of Alexandria, one of the greatest things the professor ever attempted. The Oldfellows' band will give a grand concert on the grounds.

Grand Train Fire Extinguishers.
Belleville has the crack Grand Train firemen of Canada. Yesterday a provincial meeting in Stratford they carried off the first prize in the free reel race, Toronto taking second. It was remembered that they recently carried off all the races at the Smiths Falls meeting. There were thirty competitors at the Stratford tournament.

Grand Train Ventriloquist Trains.
The seven ventriloquist trains comprising fifty-two cars passed through the city early this morning. Over three hundred people were on board. A number of the excursionists got off at Kingston to take in the Island and return. These trains carry excursionists from Chicago to White Mountains and Portland and are becoming very popular. Those who want to see the river scenery should get off at Belleville and go down the bay.

Leaving for West Toronto Junction.
Miss Tilney would remind the ladies that she will continue her sale next week only when she will close up her business. As the stock is still large the goods will be sold at greater reductions. Call and secure bargains—this week only. At 8 p.m. Military including plumes, tips etc. at cost prices. All accounts must be settled by the 10th of August, as that date they will be placed in other hands for collection.

ONTARIO MUTUAL LIFE ASSURANCE COMPANY.
Where your payments less annuals after three years, and not be less than a so-called lower rate, but which increases as you get older. But the agents probably forget to tell you this. The time for you to pay your insurance is while you are physically able to earn it, and not have to pay more in the declining years of your life than you do now. What you want is a TERM LIFE OR ENDOWMENT POLICY. This Company where the full amounts are guaranteed at the end of the term. NOT ESTIMATES, but POSITIVE GUARANTEES. It is all very well for an agent to tell you what you will get at the end of 10, 15 or 20 years. But remember that the policies don't guarantee scarcely one half what the agent says you will get, and may be in another country long before that time. So look at the Guaranteed Cash Values on the policies of the Ontario Mutual before you insure.

THAT INSPECTORSHIP.

In announcing, about two weeks ago, that Mr. James St. Charles had been appointed inspector of the Ontario Police, the Intelligence was better informed than the local organs of the government, which came out with a denial. Mr. St. Charles is a good citizen, and will, we hope, make a good inspector. He will have fair play from all.

Mr. St. Charles is a good citizen, and will, we hope, make a good inspector. He will have fair play from all. The fact is, as the Intelligence was as well informed as it might be, it would know that Mr. St. Charles received notice of appointment on Sunday, and the Ontario, as usual, when there is news to be had, was the first to announce it.

A BEMUSED REPORT.

The Tory party is evidently immensely tickled over the old chestnut that was made to do service in the last presidential campaign in the United States by the protection party and have dressed it up in Canadian clothes and expect the people to be now going the rounds of the Tory press is this.

The "Toll" pointed story that the Liberals are preparing to ask a vote of censure on the Liberal Government is a very old story, and a number of us who have been in the Liberal ranks for some time, and who have seen the Liberal Government in action, would not be surprised if the Liberal Government were to ask a vote of censure on the Liberal Government.

Fellow Citizens
INSURE YOUR LIFE IN THE
ONTARIO MUTUAL LIFE ASSURANCE COMPANY.
Where your payments lessen annually after three years, and not be at any time a so-called lower rate, which increases as you get older. But the agents probably forget to tell you that in case of death or disability while you are physically able to earn it, and not have to pay more in the declining years of life than you do now. What you want is a TERM LIFE OR ENDOWMENT POLICY in this Company where the full amounts are guaranteed at the end of the term. NO ESTIMATES, but POSITIVE GUARANTEES. It is all very well for an agent to tell you what you will get at the end of 10, 15 or 20 years. But remember that the policies don't guarantee scarcely one half what the agent says you will get, and he may be in another country long before that time. So look at the Guaranteed Cash Values on the policies of the Ontario Mutual before you insure.

The Daily Herald.
LEXINGTON, Ky., Aug. 15.—A collision between a passenger train and a freight train at the Louisville & Nashville Railroad this morning, near Lexington, resulted in 11 killed and 100 injured. The Lexington Herald-Examiner, Lexington, headed its J. T. Woodward, engineer, seriously injured, and engineer, fatally, W. C. Wood, trainmaster, both killed. It also stated a child of the Kentucky Coal of Appert, injured, William H. Smith, of Wells, Ky., dead, and John H. Lynt, killed.

Guilty by a Plank.
New York, July 13.—William Kilbree, aged 29, a life insurance company at Lockaway Beach, was drowned yesterday. It thought he was on his way to a ship. The coroner has noticed an unusual number of deaths at Lockaway Beach of late.

prostrate. The slaves, who repeatedly assured me that they were not afraid, were actually in a panic as moving the freight there and the natives fearing they would put them to death, were shouting and crying to get the freight. They met with some resistance in the mako which was a small boat, but they were very hurt by being struck with a nail in the back of one of the "Pinker-ton" and another man was killed. The goods were carried down to the point shop by the natives. The Albany police are now in possession of the bodies and everything is quiet now.

Chief, who is the founder of the "Pinker-ton" and native Police, emphatically said tonight that the firmness would go on to the end.

When I left the train from Schenectady and through the Green Island yards to the Albany station, I saw that there were 20 Pinkertons around the train and they all attempted to arrest one of the men who was carrying a gun. He refused their prisoner away. There was no further trouble.

On the train from the D. & H. strikers met out of Superintendent Hannibal's office to collect. One of the men said that the strikers were not going away they were handling Central freight.

BURGALARS CAPTURED.

Three Keweenaw Ladies Home Association.

ST. CATHARINE, Aug. 13.—The home of Herbert Shephard, living 1 1/2 miles west of St. Catharine, was broken into yesterday afternoon during the absence of the family and the burglar took away a quantity of cash to the value of \$600 in cash and two full suit cases containing clothing and other articles of value. The burglars also took away a quantity of cash and the clothes belonged to two men, Mr. Shephard's father and brother. Drowned in a Cistern.—The 3-year-old son of G. T. Baker, fell into a cistern while playing hide-and-seek with a neighbor's girl just before the dawning occurred. The child was drowned. The little fellow had been playing in a well for a while and then for a piece of mauling to eat a watermelon, passing through Mr. Fells' garden to get it. This was the last seen of him. When found in the cistern he had his eyes in his hand and a portion of his face was covered. How long he was in the water and if he was moved is not known. (—)

Insulted and Beaten.—**LEWIS A. JONES.**—A famous colored Levee man, who drives his own light wagon, was yesterday morning severely insulted by three men, who beat him terribly, and injured him.

"Joa what grounds do they claim you are not legally married?" asked the priest.

"We are both Catholics," said Mr. Guzman, "and I can't go to married only people. Tell you I won't be married. I will go to Mr. Morfin's house and with my wife, and I can be refused and make legal proceedings."

BELLEVILLE CRYSTAL HALL

Some Winds Blow Everybody Good and here's One of Them:

A new Stock is ordered for our Belleville store, and prices in Crocker's have taken a tumble, and you get the benefit.

What better could you have? We will make this space as profitable reading for you as anything in the paper on Mondays in future.

You will look for it? Mr. Carroll, who established this business some five years ago and brought it to the front of all such stores, has returned to the management.

He knows the trade here and selected the goods accordingly.

You will get all your wants supplied soon now. One carload of a mixed 18th, balance to follow this week.

The store will hold double what is here now, and with new goods and reduced prices and the original management, things will begin to buzz now.

We'll tell you something Monday, the 29th.

BELLEVILLE CRYSTAL HALL

Some Wind Blow Everybody Good and
here's One of Them:

A new stock is ordered for our
Belleville store, and any amount can be
brought in at a moment's notice.

What better look for you have?
We will make this space as profit-
able as any space for anything in
the paper on Mondays in future.

Will you look for it?
Mr. Carroll, who established this
business some five years ago and
brought it to the front of all such
stores, has returned to the manage-
ment.

He knows the trade here and se-
lected the goods accordingly.

You will get all your wants sup-
plied soon now. One careful in-
spection of the stock will follow this
month.

The store will hold double what it
has now, and with new goods and re-
duced prices and the original man-
agement, things will begin to move.
We'll tell you something Monday,
the 28th.

INSURE YOUR LIFE IN THE—

ONTARIO MUTUAL LIFE ASSURANCE

Where your payments lessen annually after three years, and so-called lower rate, but which increases as you get older. But or get to term this. The time for you to pay your insurance is now. You can't earn it, and not have to pay more in the declining years. You can't do it. What you want is a **TERM LIFE OR ENDOWMENT** Company where the full amounts are guaranteed at the end of 10, 15, 20, 25, 30, 35, 40, 45, 50, 55, 60, 65, 70, 75, 80, 85, 90, 95, 100 years. Estimates, but **POSITIVE GUARANTEES**. It is all very well to tell you what you will get at the end of 10, 15 or 20 years. But policies don't guarantee scarcely one half what the agent says you will be in another country long before that time. Remo's Wide Blow Everybody Good and here's one of them:

A new stock of material for our Belleville store, and put in a Crocker has taken a tumble, and you get the benefit of it.

What better could you have?

We will make this space as profitable reading for you as anything in the paper on Mondays in future.

Will you look for it?

Mr. Carroll, who established this store some five years ago, and brought it to the front of all such stores, has returned to the management.

He knows the trade here and selected the goods accordingly.

You will get all your wants supplied now on. Our card is in the 18th, below to follow this week.

The store will hold double what is here now, and with new goods and reduced prices and the original manager, things will begin to buzz soon.

We'll tell you something Monday, the 28th.

SCALDED TO DEATH.

FROM 15 TO 20 PEOPLE KILLED ON THE OLD CLOONEY RAILROAD.

Twelve Dead Bodies Taken from the Wreck. Three More Struck from the Wreck. The Wrecked Train on the Old Clooney Road at Belleville, Ont., on the 19th inst.

The first passenger car fell on the engine, the latter having toppled over. The engine fell on the tracks. The train was instantly killed and the engine fatally injured. At least 15 passengers were killed and about 30 injured. The latter were for the greater part injured by crushing, having been crushed by the train. The dead and injured were removed from the scene, the latter being taken to private homes and to the Belleville Hospital.

The cause of the accident is not yet known. The train was a passenger train, and was carrying about 150 passengers. It was a freight train, and was carrying about 1000 tons of freight.

THE WORK OF THE WIND.

DISASTROUS CYCLONE IN PENNSYLVANIA.

Willesboro in Holmes—Hundreds of Houses Wrecked and Many Lives Lost. The town in the Keystone State. The Wreck of the Wind.

WILKESBORO, Pa., Aug. 19.—At 6 o'clock this afternoon the most terrific cyclone of the season was experienced in this locality. The wind, it was said, was with most frightful velocity, while rows of trees were blown down. Following the hurricane of houses were wrecked, partially blown over or completely demolished. More than 1000 people were killed. How many were killed is not known at this time. Large districts in several sections of the city are in absolute ruin and the women and children are in the streets crying and wringing their hands in absolute despair. The damage will reach hundreds of thousands of dollars.

Passenger trains and locomotives at the depot were blown over and were in the city, electric wires, telegraph and telephone lines were down. The devastation is to be compared with nothing in the memory of the oldest inhabitant. It is reported that the cars that were blown over were followed by the streets are irretrievably lost and fall. Buildings were blown down. The wind was so strong that it was impossible to stand. The wind was so strong that it was impossible to stand. The wind was so strong that it was impossible to stand.

THE DAILY ONTARIO is published every morning except on Sundays and public holidays. It is sold by news-vendors at the rate of one cent per copy. It is also sold by subscription at the rate of \$1.00 per annum in advance. The price of the paper is \$1.00 per annum in advance. The price of the paper is \$1.00 per annum in advance.

THE ONTARIO STRIKE.
The strike on the New York Central railway continues, and the end is not in sight. The railway officials contend that the employees want to dictate to them as to what the policy of the relation between employer and employee shall be, and that they will look upon such interference as a challenge and that they will not be deterred by the fact that a number of old employees of the road, some of them faithful servants for 20 years, have been dismissed and it is a striking coincidence that the men were dismissed in the past in endeavors to obtain an adjustment of grievances between the Company and employees. The Knights claim that the dismissal of Webb's refusal to arbitrate is a challenge and that there was no cause open except to strike; that the strike means life or death to the Knights of Labor. The organization of the men seems to be without defeat, but against that organization is arrayed the millions of the Vanderbilts. There is one hope however, for the strikers. Chalmers Depey, president of the road appears to be the president of the Republic, and it is now on a tour in England, and it is stated that the trouble on the Central will bring him home. To carry out his ambitions he may give the men what they ask, in the meantime, the Knights of Labor are in hopes that the state, acting in the public interest, will appoint a committee of arbitrators to investigate their grievances.

PARLY PURITY.
When the Intelligence has become so warm an advocate of party purity and so fervent a denunciator of party corruption it is probably only necessary to point out the degree of shamless recidity to have that journal denounce it in most scathing terms. It is a well known fact that when Mr. Mackenzie Bowell first offered for Parliament in North Hastings in opposition to the late Hon. W. A. Wallbridge was rejected by the people of the riding. At the next contest he was more successful and the secret of success involved methods which the Intelligence has yet refrained from discussing. Hon. J. H. Flint was at this time extensively engaged in lumber operations and he had large timber lands and a great many men in his employ. A list of about hundred thirty men were handed the clerk of the township and were by him placed on the voters list without consulting the assessor or enquiring as to the legality of the act. These men voted solid for Mr. Bowell and it was through such disgraceful trickery that he secured his seat. In the next election Mr. Hudson has pursued a somewhat similar course in East Hastings, but the trick will not work.

They Spink for Themselves.
PICKTON, Feb. 17.—It is to be certified that I have used Folson's Nervine for rheumatism, and have found it to be a remedy for all internal pain, and would greatly recommend it to the public.—N. K. KING.

LEEDS COUNTY, Jan. 9h.—We are not in the habit of putting patent medicines, but we cannot withhold our warm recommendation to the great value of Nervine as a remedy for pain. We have purchased in recommending it as a never-failing remedy. Rev. H. ALLEN, BISHOP, DILLON, and many others. Sold by druggists.

Mothers.
There are upon the skin of every human being child and adult about 2,000 pores. Through these pores the body is constantly perspiring is expelled more than one-quarter of the nourishment taken into the system. The system of the body opens these perspiration valves upon the body is second only to that of properly digesting the food eaten. It is to open the pores of the skin and to assimilate the food that Dr. Picher formulated Castoria. Loose bowels, constipation, and eruptions which are so constant among infants and children, and which kill one-third of all children before they are five years old, arise principally from these two causes. It is from the wonderful results attendant upon the use of Castoria in relieving the infant and the child, and keeping open the pores of the skin that Castoria acquired its worldwide reputation. With plenty of water for the body, pure for the lungs and the stomach, the food, there need be no assimilation for sickness among children. Castoria is a vegetable preparation, containing no opium or other narcotic property. Thirty years extensive use has given it authority never attained by other medicine. It is it is to follow the following hints in any season. Crows, kingfishers, jays, bluebirds, robins, and many other birds, as well as wild animals and black birds.

The Boy of Quaint Exhibition.
The projects are now very bright for a first-class exhibition. The project is in a charge of Mr. J. L. Bigger, to whom those wanting space should apply at once. It is a given question where the exhibition is to be held, as the Eastern Dairy men's Association have caused a special price list of nearly \$1000. The city council should give a sufficient grant to put up a building for the purpose as there is no industry in the district which is more than the dairy industry. It causes an expenditure of some millions annually in this district alone.

OUTS OF FIREMEN PLUNK AND MAR THE SAUCY

The Programmers Faithfully Carried Out the Plan

The Result of the Grand Trunk Firemen's tournament here yesterday was not as successful as was anticipated, but it was through no fault of the management, for some fourteen or fifteen regrets were sent in only a day previous to the turnout.

The local brigades had gone to so many engagements and were so busy that they were unable to make their appearance in person, but the local team, which was the only one to appear, was the only one to win.

A Medical Triumph! A Very Bad Case!

DYSPEPSIA VANQUISHED.

HOW THE HEALTH OF ONE OF BELLEVILLE'S CITIZENS WAS RESTORED.

Remarkable Cure of Dropsy and Dyspepsia.

Mr. JAMES JOHNSON, 4th con., 7th div., Amherst, writes: "I was troubled with Dyspepsia, which gradually became more and more distressing. I used various domestic remedies, and applied to my physician, but received no benefit. I had a severe attack of Dyspepsia, which was accompanied by Dropsy. I was unable to eat or drink, and I was in a very bad state of health. I was advised to try Northrop & Lyman's Vegetable Compound, and I did so. I had taken three bottles, when I was perfectly well. I consider it a great cure for Dyspepsia. I know of several persons who have used it with the same result."

WHY COUGH

WHEN a few doses of Ayer's Cherry
Pectoral will relieve you. Try it.

Keep it in the house. You know
it has a cough at any

time, and no remedy is so effective
as this world-

famous preparation. No household
should be without it.

Bores of Liver
suffer every year by
its timely use.

James O'Brien, Montreal,
writes: "Common gratitude
impels me to state that I have
derived from my children from
the use of Ayer's Cherry Pectoral.

I had lost two dear children
from the cough and consumption, and
the greatest fear of losing my only
remaining daughter and son, as they were
delicate. Happily, I find that by giving
Ayer's Cherry Pectoral, on the first
symptoms of throat or lung trouble, they
are relieved from danger, and are be-
coming robust, healthy children."

"In the winter of 1885 I took a bad
cold, which, in spite of every known
remedy, grew worse, so that the family
physician considered me incurable, sug-
gesting me to be put to death. I was
then, in a short time, the cure was
effected. Since then, I have never been
without this medicine. I am fifty years
of age, weigh over 150 lbs., and I feel
my good health to the use of
Ayer's Cherry Pectoral. M. J. C. C.

WIMAN AT NIAGARA.

The fact that secretary of state, Blaine, has used his influence to secure reciprocity trade relations with the United States shows the great stride in the republic toward free trade relations with the countries of the North American continent. The Canadian resolution opens the door for Canadian statements to approach the United States government and the statutes of the Dominion make it possible for the Dominion government, by order in council, to adopt reciprocal trade relations without reference to parliament, but the amendment to the tariff act in last parliament shows only too clearly that the people seek not to be legislated favorably to the nation, but the nationists of the country have the ear of the government and have no mind to loosen their grip. There is only one way to interrupt a policy that is steadily draining Canada of the flower of the rising generation and that way was pointed out by Mr. Wiman at his address at Niagara on Thursday 28th. He said:

It is reasonable, after all that has been said to ask how it is that the farmers of Canada possess the power to adjust the difficulties between the two countries. They are interested in reciprocity under the Hitt resolution they must elect a Government that will deal with the farmers for the boon. This they can do at the next general election. By constitutional means the farmers of Canada can say to the United States: "We want to trade with you, our brothers across the border; we want to remove the barrier that excludes us from your market and you from ours; we want enterprise and capital to penetrate our natural resources; we want to feel the impulse of a commerce that shall be continental in extent, and continental in the extent of its products. This the farmers of Canada can say at the next general election, which is likely to be held within eighteen months. The existing Government have adopted the National Policy, which is which is best adapted for Canada. For fifteen years this policy has been tried and its results, so far as a Christian nation, and the United States are concerned, are to beget a commercial barrier that is higher and higher the barrier that separates the two nations, and to restrict and isolate Canada from the rest of the continent. The Liberal party, on the other hand, should they come into power, will undoubtedly accept the National Policy resolution, appoint commissioners, and discover if it is possible to add a plan by which the two countries can trade with each other without let or hindrance. The issue plainly stated is this—Shall the National Policy continue, or shall the Liberal party and the McKibbin bill, with all their grinding exactions, be enforced between the two countries? Shall the Liberal party's policy prevail, having for its purpose the complete obliteration of the commercial barrier between the two countries and the development of Canada's enormous natural resources?

EDITORIAL COMMENTS.

The commandant of the Royal Military College, Kingston has made several tests of his carrier pigeons and each has proved satisfactory. These birds are used for military use, in case of war is presumed, but should there ever be a squabble their usefulness will be limited to a small compass. In the flights from Smith's Falls and Ottawa the birds have shown considerable speed in returning to their coop.

All cases of weak or lame back, backache, rheumatism, will find relief by wearing one of Carter's "Smart" Backache Plasters. Price 25 cents. Try them.

Dyspepsia and indigestion—C. W. Snow & Co., Syracuse, N. Y. write: "Please send us ten gross of Pills. We are selling more than ever. Check for any other pill we keep. They have a great reputation for the cure of Dyspepsia and Liver Complaint." Mr. Chas. C. Smith Lindy writes: "Parmenter's Pills are an excellent medicine. My sister has been troubled with severe headache, but these Pills have cured her."

Dyspepsia or indigestion is occasioned by the want of action in the bilious diet, loss of vitality in the stomach, or secretion of the gastric juices without which digestion cannot go on, also, the want of action in the cause of Headache, Parmenter's Vegetable Pills being gone to bed for awhile, never fail to give relief. Write to a C. W. M. F. W. Ashdown, Ashdown Ont., write "Parmenter's Pills are taking the lead against ten other makes which I have in stock."

Ample warning is given us by our lungs when they are in danger. If foolishly enough to neglect the warning, we incur immediate pain.
